SIDE DISH

1. Serve as a side dish

How to defrost the product:

A. AMBIENT TEMPERATURE
Without removing the product from its original packaging, place it in a container with little COLD water and leave it defrosting at room temperature. Once thawed, heat according to specifications suggested.

B. REFRIGERATION
One day before serving, place the product in its original packaging in refrigeration. Once defrosted, heat according to specifications suggested.

C. MICROWAVE
Place the product in its original packaging inside the microwave, select the "defrost" function and follow the instructions in your microwave.

Suggestions for heating:

PORKLUNCH

SUGGESTED

Microwave

1. Defrost according to the suggestions.
2. Place the content in a microwave-safe container. Preferably cover it with a microwave lid to avoid splatters.
3. Heat at high temperature for 15 to 20 minutes. If necessary, heat 10 more minutes or until reaching the desired temperature.
4. Serve

Frying Pan

1. Defrost according to the suggestions.
2. Pour the contents into a frying pan non-stick, and heat over low heat. Move the meat constantly to prevent sticking, if required you can add some water.
3. Serve.

Water Bath

1. Place the sealed package in a container with very hot water.
2. Let it rest until reaching the desired heat temperature.
3. Serve
